The DC Office of the Ombudsman for Public Education is an impartial, independent, and neutral office that uses mediation and conflict resolution to resolve complaints and concerns for parents and families regarding public education in the District of Columbia. The Office uses an “Activist Ombudsman” approach. We believe it is our responsibility to speak out against the systemic inequities that hurt our city’s children.

**ombudsman**

/ˈæmbədzmən/
noun
An “entrusted person” or “grievance representative”
Role of the Education Ombudsman

• Respond to complaints and concerns, and serve as an informational resource to families and students.

• De-escalate and repair relationships through creative problem-solving and conflict resolution techniques.

• Provide technical assistance to community organizations, LEAs, and education stakeholders on public education issues.

• Act as an early warning system of new, emerging issues and trends to school leaders, education stakeholders, and elected/appointed officials.

• Leverage case trends to contribute to city-wide conversations regarding cross-sector education systems to effect systemic change.
This shows how the Office of the Ombudsman primarily works with disputes during the disagreement and conflict stages of the DC Dispute Resolution Continuum*. It is in these stages where we complete our one-on-one case management. We use the data from those cases to form recommendations to create systemic change in hopes of preventing similar disputes in the future.

During intake, we ask a series of questions to determine the scope of the callers concerns and to determine if further consultation and actions are required.

During consultation, we work to understand the caller’s perspective and help identify additional issues and contributing factors.

During the Intervention stage we work as an impartial third party to help reach a resolution.

We understand that sometimes there are other partners who can better address the issues- in those cases we make a referral.

Our process is designed to allow for a resolution at any point. We use the data we collect from cases to:
- Refine or processes and practice
- Develop and provide technical assistance to schools and local education agencies
- Create police and systemic recommendations.
